NxGen Group Appoints Julio Sibrián as Advisor to the Board of Directors

Seasoned international business and legal expert brings over 25 years of experience in structuring financing, foreign direct investment, and strategic alliances to strengthen the NXG Real Assets Fund

Mexico City — NxGen Group, the Fund Manager of the NXG Real Assets Fund, today announced the appointment of Julio Sibrián, LL.M., MBA as Advisor to the Board of Directors. Mr. Sibrián serves on the Board of Directors of CIGSA and as an advisor to the CEO of Grupo Odepal—the owner and manager, respectively, of the Guatemala Interoceanic Corridor—one of the most significant infrastructure and logistics projects in Central America. The appointment underscores NxGen’s commitment to building a world-class leadership team with direct access to transformative real asset opportunities across the region.

Strategic Value to the Fund

Mr. Sibrián’s appointment brings significant strategic value to the NXG Real Assets Fund. As the founder and CEO of PONTEX LATAM and SAFIRO—two firms specializing in structuring financing, foreign direct investment, public-private partnerships, and investment funds—he brings a deep operational understanding of the investment structures and deal frameworks that are central to the Fund’s strategy.

With over 25 years of experience spanning international business and legal disciplines, Mr. Sibrián has a proven track record of developing and diversifying companies, protecting investor interests, and leveraging strategic alliances to unlock growth. His expertise in public-private partnerships is particularly valuable as the Fund targets real asset investments where such structures are essential to project execution and risk mitigation.

Critically, Mr. Sibrián’s leadership roles with CIGSA and Grupo Odepal—the owner and manager of the Guatemala Interoceanic Corridor—give the Fund a direct strategic connection to one of Central America’s landmark infrastructure projects. The Corridor represents a major convergence of logistics, real assets, and public-private partnership investment, aligning closely with the Fund’s mandate. These relationships enhance the Fund’s ability to source proprietary investment opportunities, access critical deal flow, and conduct thorough due diligence in the region.

Credentials and Background

Mr. Sibrián holds a Master of Laws (LL.M.) from the University of California, Berkeley School of Law, and an MBA in International Business from Ajou University in South Korea. He is a recipient of the prestigious Fulbright scholarship, which he used to study International Trade Law and the WTO at the University of Arizona. He is also a Lawyer and Notary Public in El Salvador. His combination of elite legal education,

international business acumen, and hands-on experience in cross-border financing positions him uniquely to advise the Fund on complex transactions and regulatory considerations across multiple jurisdictions.

###
